SECTION # 2

SERVICES NEEDED BY THE VILLAGE

2.1 GENERAL BACKGROUND

In an effort to closely align the Village's limited resources with the needs and desires of our residents, the Village wishes to conduct its third needs assessment survey. The first two surveys were conducted in 2002 and 2006. This customer input is a critical piece of the Strategic Planning process. These surveys have been the primary method used to determine key customer requirements, needs, and changing expectations.

The Village is seeking a survey conducted by an independent research company. The survey shall consist of in-depth interviews conducted with more than 500 residents to provide valuable, actionable feedback to the Village on what is important to its residents. The questions serve to gather statistically valid input from residents about their needs and the feasibility of implementing different desires within the community. This information is used to provide direction for future planning and action. The most recently completed surveys are attached to this RFP.

2.2 SCOPE OF SERVICES

The scope of services that the Village requests the Consultant to provide includes the following three components: (1) Survey Design; (2) Survey Administration; and (3) Presentation of Survey Results. **Please provide a separate breakdown of costs for each component.** Each of these components will be discussed in further detail below:

A. Survey Design

- ◆ Review survey questions from previous surveys and topics provided;
- ◆ Meet with Village staff and elected officials to discuss format and to insure questions will generate unbiased responses;
- ◆ Conduct the necessary focus groups with residents in the community to help identify the core issues to be included in the survey;
- ◆ Design the survey format, including the appropriate length and timeframe to complete the survey.
- ◆ Select a random sample of households to be surveyed and establish a database; and
- ◆ Test the survey instrument;

B. Survey Administration

- ◆ Administer the survey to insure a ninety-five (95%) percent confidence rating in the survey findings with a three point plus or minus variance;
- ◆ Complete a minimum of 500 surveys; and
- ◆ Conduct data entry and quality control review for all completed surveys along with complete printouts of the data

C. Presentation of Survey Results

- ◆ Complete a summary report with an executive summary, description of the methodology, charts, and tables including analysis and recommendations;
- ◆ Develop cross tabulations as required;
- ◆ Provide frequency tables for all responses;
- ◆ Make verbal presentation(s) to the Village Council; and
- ◆ Determine that changes in survey results or trends identified by different surveys are statistically valid.
